”Green” products ”E-CLPS”

Environmental friendly chemicals...

Candor has high demands from the industry to offer the newest and environmental friendly technology in every field and market area. We are committed to environmental protection and we always follow trends, laws and directives to minimize the impact to our nature. For us it is natural that a lot of R&D is invested in new technology regardless of market area. For us it is natural to offer hexavalent free chromium, cadmium and lead free products and substitutes to chromates, phosphates and other products that have a high environmental impact.

Candor products meets the demands to the following market areas and to each market area we are able to supply complete ”package” of different products:

- Pretreatment (borax & phosphate free)
- Iron & Zonc phosphate replacement
- Chromium free passivation
- Trivalent passivation products
- Fluoride free processes
- Replacement of nitrate and nitrite containing processes
- **E-CLPS** processes
- **TRI-CLPS** processes
- **Zirca-Sil** processes
